End of Government Extravagance Is Demanded by the Nominee.

Senators Upheld for Their Opposition to the League of Nations.

NORTHAMPTON, Mass., July 27 .-In his speech of acceptance of the Republican Vice-Presidential nomination "DOV. MORBOW AND MEMBERS OF THE NOTIFICATION COMMITTEE:

"To your now formal notification I respond with the formal acceptance. Your presence tells me of a leader and a cause. A leader in Warren G. Harding, the united choice of a united party, a statesman of ability, seasoned by experience, a fitting representative of the com-mon aspirations of his fellow citizens, wise enough to seek counsel, great enough to recognize merit, and in all things a stalwart American; the cause of our common country, as declared in the platform of the Republican party, the defence of our institutions from every assault, the restoration of constitutional government, the maintenance of order, the relief of economic istress, the encouragement of industry and agriculture, the enactment of humanitarian laws, the defence of the rights of our citizens everywhere, the reabilitation of this nation in the estima tion of all peoples, under an agreement, meeting our every duty, to preserve the peace of the world, always with unyield-ing Americanism, under such a leader,

such a cause, I serve. No one in public life can be oblivious to the organized efforts to undermine the faith of our people in their gov-ernment, foment discord, aggravate injustrial strife, stifle production, and ultimately stir up revolution. These ef-forts are a great public menace, not through danger of success, but through the great amount of harm they can do if The first duty of the Government is to repress them, punishing wilful violations of law, turning the full light of publicity on all abuses of the right of assembly and of free speech, and it is the first duty of the public and press expose false doctrines and answer tions can stand discussion and criticism. only if those who know bear for them the testimony of the truth. "There is yet another manifest disposi-tion which has preyed on the weakness of the race from its infancy, denounced alike by the letter and the spirit of the Constitution and repugnant to all that is American, the attempt to create class distinctions. In its full development this ivilization as exists is rigidly set, and publican Vice-Presidential nomination that clasticity so necessary for progress here to-day, Gov. Calvin Coolidge said: and that recognition of equality which has been the alm and glory of our insti-tutions are destroyed and denied. -Socicty to advance must not be a dead form but a living organism, plastic, inviting progress. There are no classes here. There are different occupations and different stations; certainly there can be no class of employer and employed.

#### Work for Each Other.

"All true Americans are working for each other, exchanging the results of the efforts of hand and brain wrought through the unconsumed efforts of yesterday, which we call capital, all paying and being paid by each other, serving and being served. To do otherwise is to stand disgraced and allen to our institutions. This means that government must look at the part in the light of the whole, that legislation must be directed not for private interest, but for public welfare, and that thereby alone will each of our citizens find the greatest accomplish-

onsiderable remedy,

"The most obvious place to begin retrenchment is by eliminating the ex-travagance of the Government itself. In this the Congress has made a comnendable beginning, but although Congress makes the appropriations the departments make the expenditures, which are not under legislative but executive control. The extravagant stand-ards bred of recent years must be elim-inated. This should show immediately in reduced taxation. That great breeder of public and private extravagance, the excess profits tax, should be revised and recourse had to customs taxes on immeans of raising revenue, for it is voluntary in effect and taxes consumption rather than production. It should be laid according to the needs of a creditor nation for the protection of the public, with a purpose to render us both economically and defensively independent.

"A revision of taxation must be companied with a reduction of that private extravagance which the returns an autocratic method of government is absolutely necessary. Unless the Government and property of the nation are in the hands of the people, and there to stay as their permanent abliding place, self government ends and the hope of America goes down in ruins. This need is transcendent.

"Diminishing resources warn us of the necessity of conservation. The public domain is the property of the public. It is held in trust for present and future generations. The material resources of our country are great, very great, but they are not inexhaustible. They are becoming more and more valuable and more and more necessary to the public welfare. It is not wise either to withhold water power, reservoir sitas, and mineral deposits from development or to deny a reasonable profit to such operations. But these natural resources are not to be turned over to speculation to the detriment of the public. Such a policy would soon remove these result would be that soon the people would be paying tribute to private greed. Conservation does not desire to retard ion a duly promulgated body of corresproading laws.

"The march of civilization has been ever under the protecting segis of the law. It is the strong defence of the weak, the ever present refuge of innocence, a mighty fortress of the righteous. One with the law is a majority. While the law is observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the progress of civilization will continue. When such observed the profit to such operations. But these natural resources are not to deny a reasonable profit to such operations. But these natural resources are not to be turned over to speculation to the detriment of the public. Such a policy would soon remove these results would be paying tribute to private great.

Conservation does not desire to retard development. It permits it and encourages it. It is a desire honestly to ad-minister the public domain. The time has passed when public franchises and public grants can be used for private speculation.
"Whenever in the future this nation undertakes to assess its strength and resources the largest item will be the roll of those who served her in every pa-triotic capacity in the world war. There are those who hore the civil tasks of that great undertaking, often at heavy sacrifices, alway, with the disinterested desire to serve their country. There are those who were the uniform. The automobile had gone but a few yards when Mr. Crane fainted. He was hurried back to the Coolidge house and a physician called. Mr. Crane revived rapidly and the physician diagnosed the illness as the result of too long exposure to the sun and, in addition, a slight attack of indigestion.

Mr. Crane revived sufficiently within an hour to start for his home at Dalton, Mass., about sixty-five miles from home in his own motor car. The phy sician said that the attack was a slight

Senator Pomerene's statement regardng the probable course of the investinmittee was quite aside from his talk with Gov. This Senator Pomerene told Gov. Cox he had already done, in a letter sent a week ago to Senator Will-iam S. Kenyon (Iowa), chairman of the

Senator Pomerene sent the letter to Senator Kenyon's home at Fort Dodge Iowa, but learned afterward that Mr. Kenyon had gone for a vacation in the Maine woods. There is no question in Senator Pomerene's mind that the committee will be reconvened at some early future date for receipt of reports reparding the campaign receipts and expenditures of both the Republican and emocratic parties.

#### Not to Check Party Activities.

It is clear, however, that there is no ntention of following out the suggeslons of Gov. Cox and some of his associates that daily and weekly reports be made to the committee. The committee intends to hold its hearings when they are deemed necessary, and the members will participate to a considerable part in the campaign, taking the stump on behalf of their respective nominees. "My letter to Senator Kenyon, who is chairman of the committee, makes cer tain suggestions, which I am reasonably sure, knowing Senator Kenyon's attitude in the matter, will be adopted. I have no idea, of course, when the com mittee will be reconvened.

### Goes to Basic Law.

Senator Pomerene explained that he had been unable to attend the Chicago and St. Louis sessions of the committee early in the present month, because he had not yet returned from the San Francisco convention. His entire information about these sessions, he said, had come from the newspapers.

"We have been giving considerable study to the good that can come out of the investigations," added Mr. Pomerene, who is a lawyer and who served during the recent Democratic control of the Senate as chairman of the committee on privileges and elections.

"A peculiar situation exists, and it does not seem that a removely can be had through any legislation until after a natitutional amendment '- obtained "The reason rests in the fact that the people do not vote directly for President and Vice President, but for Presidential electors instead. The electors are under the direct authority of the State Governments and not the Federal Government. There is no way in which the Paderal Government can exercise control over the funds expended in their

"Senator Kenyon has asked the memters of the committee to make reconform in Presidential elections. Frankly. I cannot see any way that this can accomplished unless there is a constitutional amendment. While, of course, I cannot speak for the entire commit-tee, I am able to say that the submission of a constitutional amendment will be

considered and is much in favor. Mayor J. M. Switzer called on the people of Dayton to join in a non-partisar celebration in henor of Gov. Cox's notifi-cation. ## STAMPED PAPER

In South America seven countries add to their revenues by selling stamped paper.

This is paper water-marked with the arms or seal of the country. The law requires that it shall be used for all legal papers.

Paper for such purposes must be very durable. Legal documents require much handling. Moreover, the paper must be of such a quality as will reflect credit on the government issuing it.

Each of these seven countries uses CRANE'S Bond for its stamped paper.
